McClurkin Makes Rich Strike

J. H. McClurkin, who has been very active and persistent in his search for oil around Clay City has "struck it rich" at last. He purchased about 100 acres of Claborn and Pleas Tipton, about half a mile north of Fitchburg Furnace, and organized the Furnace Oil Co., which is composed of prominent Blue Grass citizens. Mr. McClurkin owns 200 shares—one-fifth, interest in the company. Their first well was brought in Tuesday, being only 327 feet deep, and the oil is flowing over the casing. Experts pronounce it one of the best wells ever drilled in the Irvine field, and it is thought to be good for 250 to 300 barrels daily. Mr. McClurkin has refused an offer of \$30,000 cash for the property.

Attend Association.

The Boone's Creek Baptist Association held a most interesting annual meeting with the church at Kiddville Tuesday and Wednesday of this week. Mr. and Mrs. F. P. Adams, Mr. and Mrs. D. D. Potts attended this meeting as messengers from Powell's Valley Baptist church. The Association will be held next year with Providence church in Clark county on Wednesday.

James G. Bradenell, of Stanton, presided at the inquiring trial of Press Spencer last Thursday for the killing of Alvin Hon in which Spencer's bond was placed at \$5,000. The Squire performed the duties like an old hand and at this trial demonstrated his capabilities. Judge Knox was a relative of Hon's wife and could not sit in the case. Attorney A. T. Stewart assisted County Attorney A. H. Norton in the prosecution, while J. D. Atkinson represented the defendant.

Drilling Stops.

The drilling for oil on Edwin Rose's place near town has ceased after sinking a well down but 350 feet. The natives here know but little about the oil business, but most of them who have had holes sunk to such shallow depth feel that they have had no test of the field. Oil is not found in other fields until a depth of 2000 feet is reached, and it may be here at that depth.

Powell Girl Wins.

Miss Beatrice Blount, of Stanton, who attended the Muskingum Summer School at New Concord, O., won first honors in a public speaking contest of the school in which fourteen contestants participated. Miss Blount is a pupil of Stanton College, which shows the excellent drilling of this school.

The Clay City High School will organize a basketball team and prepare to play match games with other teams in neighboring towns.

To Work Road.

The citizens living on the Estill county road will meet at the bridge Friday (tomorrow) morning to begin cutting down the river hill to 5 per cent grade and turnpike it before the bad weather sets in. This hill has blue clay top surface and each winter gets more impassable. The Road Commission will improve this inter-county seat road in conjunction with the people, but before their plans can be perfected now with the State, it will be too late to fix this hill for service this winter and that is what the people want. It is urged of all who are interested in this road to come out promptly and help put it in repair.

Presbyterian Church.

The rite of baptism will be observed Sunday morning. Communion service on the 24th. All the members are urged to be present at these services, as well as those who wish to worship their God. To fail in developing this side of our life is to lose the best things of it, because man is religious in spite of himself and will never be really satisfied with life until he does provide for it.

The services were espe-

Assessment Commences.

Deputy Assessor Jas. W. Woolery has begun his work in this end of the county. Mr. Woolery is an old hand at the pump and it is hoped that he and his chief, Mr. Frazier, will in some way induce some of the unloyal taxpayers of the county to assess their property at what is its near worth so that the State will not have to raise all of us to keep the total assessment something close up to what it has been in former years. Everybody knows that the property value of Powell county has advanced in the past few years, but the assessment shows a decline. Something is wrong, and now is the time to correct that wrong.

Eats Snow on Pike's Peak.

While the people of Powell county were sweltering with heat last Monday, our countryman, N. V. Rose, who is sojourning in Colorado, was on Pike's Peak in that State quenching his thirst by eating snow. He also visited the famous Cripple Creek gold mines where he descended a mine shaft 500 feet into the earth and there penetrated the interior of the mines to a distance of 1,200 feet, or nearly one-quarter mile

higher up.

On September 4th there arrived at the home of Rev. and Mrs. J. T. Adams a little visitor who will make her home with them. She arrived on the same day of the month as the first baby who came one year ago so that there will be a double birthday at the same time.

THE TIMES.

J. E. Burgher, : : Publisher.

Entered as second-class mail matter at the Post Office at Clay City, Ky., under the Act of Congress of March 3, 1879.

A HOME-MADE PAPER.

THURSDAY, SEPT. 14, 1916.

The poor train accommodations and the poor mail service in the afternoon seems to be getting on the nerves of all the business men of Clay City, Stanton and the traveling public. Country people going from L. & E. stations to Winchester, Mt. Sterling and Lexington are getting tired of having to go home in the dark after getting off the night trains that used to come early enough in the afternoon to get home before night.

The L. & N. has a combination service over the W. & I. and L. & E. that rightly belongs to the L. & E. alone. This neglect of public service was made possible when the L. & N. was allowed by the State authorities to illegally acquire the L. & E. We predicted then that such service would be imposed upon the people whenever it was to the L. & N.'s advantage to do so. Give a railroad an inch and they will take a mile. We are entitled to as good service today as we had ten years ago, but we are not getting it.

* * *

to observe the law. Then the service will come out of mere competition. And the mileage will go down to what it used to be—\$20 per thousand miles.

The day at Winchester Saturday was a big event. Thousands were fed and entertained. Vice-President Marshall and select others were specially entertained by private dinner. The Democrat of that city refers to the special dinner as a "little error", and truly it was. The Democratic party has always been the party of the common people, and it will continue to be, regardless of the blunders made by a few of its members occasionally. The Times believes that no one man is better than another any further than his honor and precepts place him. Position does not make the man, or add one iota of prestige to the real man. He must make himself from his own acts and deeds.

Under all events the day at Winchester was a big day and added hundreds of votes to the ticket despite this "little error". The best interests of the party should not suffer because of the mistakes of the few. Democrats are voting for Wilson and as Marshall said, "when the kite goes up it will take the tail up too."

The Times can countenance no distinction at any time between the rich and poor; the man high in office and the plain citizen. We are all the same, and any recognition of difference is undemocratic.

One of the first acts of Rou-

mania after entering the war, like all the other fighting nations, was to stop the sale of liquor, which of course means to stop drinking it. The countries have learned that men cannot do good fighting, scientifically, full of liquor. In this country the boys do most of their fighting after getting tanked up on liquor. But then our boys kill by retail, while across the ocean they purpose to murder by the wholesale, and only the leaders need to prop their "spirits up by putting spirits down." The sober man must do the real fighting, since the intoxicated man in the army, as in the country, is too apt to kill his best friend because it comes handy, and it is often his idea more to do plain killing, regardless of who it is, instead of slaying the enemy only.

If the warring nations will keep liquor away from them after the close of the war as sacredly as they are during the war, the cost of the war at its tremendous toll of property and blood, will be an insignificant consideration, and though appalling as it is, we should envy the day that kept this country from the wrangle. But it is not the purpose of the war to everlasting stop the use of liquor. A great pity that it is not.

Judge Kirk, who is contesting for the Appellate Republican nomination for Court of Appeals has proposed that both he and Judge Sampson step aside and let Judge Willis, Judge Gourley, or some other Republican be named by committees that know enough law to file a suit of expenses

which

tion under an arrangement. While the Republican brethren are wrangling, the Democrats are smiling, and Judge Roberson is sawing wood. The Democrats elected their man four years ago, and there is hoping again.

The election of school trustees will come up in a few days. There is considerable opposition to consolidation of school districts and building larger school houses on account of the bad roads to travel in the winter months, and on account of the necessity to keep the school tax in the county to the present high limit. If the people will first find out how the candidates for trustees stand on the proposition and vote only for those who are for a continuation of accessible schools and a lower tax, the question will be solved.

A splendid correspondence came from Bowen this week which we desired to print so much, but as no name was signed and as there was nothing connected with the letter by which we could identify the writer, it was, of necessity, cast in the waste basket.

We again take occasion to warn all persons writing items for publication in The Times, that they must sign their name; not that we will print it, but that we may know who is responsible for the matter.

By a recent act of Congress all widows of civil war veterans can now draw a pension, whereas a former law provided only for widows that were married to old soldiers prior to June 27, 1890.

Sale of Road Bonds

The Road Commission of Powell County, will on the 22nd day of September, 1916, at the Court House in Stanton, Ky., receive sealed bids for the sale of bonds to the amount of \$40,000.00, proceeds of which are to be used in the State Aid road construction.

The purchaser to publish bonds according to the order for their issue which is, that the bonds shall not be sold for less than par nor to bear a greater rate of interest than 5% per annum, interest payable semi-annually, and bonds to run for 30 years, redeemable at any time after five years. Bonds to be delivered to purchaser in such installments and at such times as the funds are needed, and to bear interest only from date of delivery.

STOP THE FIRST COLD

A cold does not get well of itself. The process of wearing out a cold wears you out, and your cough becomes serious if neglected. Hacking coughs drain the energy and sap the vitality. For 47 years the happy combination of soothing antiseptic balsams in Dr. King's New Discovery has healed coughs and relieved congestion. Young and old can testify to the effectiveness of Dr. King's New Discovery for coughs and colds. Buy a bottle today at your druggist, 50c. adv.

WHY WE WANT WILSON.

(By B. F. Kincaid.)

Now listen, dear friends, relatives,

<p

Mrs. Wilson of Lexington, Ky. Says. "I advise everyone who has Stomach ills to try it."

"I have taken several bottles of Tanlac and feel greatly relieved," declared Mrs. Cynthia Wilson, 606 east Sixth street, Lexington.

I really feel that I cannot praise it enough for what it has done for me. I advise everybody who has stomach trouble to give it a trial."

Tanlac's great success in relieving ailments similar to Mrs. Wilson's has tempted many to imitate it but there are no other medicines like it.

To obtain Tanlac the makers searched the world for ingredients.

It is made of the best the earth

produces—it is a triumph of chemical genius.

No remedy was ever compounded on such a wide scope of usefulness. Tanlac is especially a stomach, kidney and liver remedy with power to stimulate the mucous membranes.

Tanlac is being specially introduced in Clay City at the store of Eaton & McGuire.

Tanlac may be obtained in Stanton at Hardwick & Co.; Bowen, Day and King; College Hill, Ginter Bros.; Torrent, J. Taylor Day; Irvine, Irvine Drug Co., Genet, Genet Cash Store; Waltersville, Henry Waldron.

Wm. Wells purchased the John Highley place on Frames Branch last week for \$400 instead of \$300 as at first reported. The farm is a bargain at the price paid.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in writing of her experience with Cardui, the woman's tonic. She says further: "Before I began to use Cardui, my back and head would hurt so bad, I thought the pain would kill me. I was hardly able to do any of my housework. After taking three bottles of Cardui, I began to feel like a new woman. I soon gained 35 pounds, and now, I do all my housework, as well as run a big water mill.

I wish every suffering woman would give

STANTON. (Continued from First Page)

Have you noticed how nice the new cemetery fence looks now that the three sides have been put up?

If you haven't take a walk out that way and see. It looks so much better than that old, ramshackled,

dilapidated, eye sore, always falling down rail and board fence overgrown with weeds and briars and forever being broken through by cattle and horses. We trust that

you will have enough pride about you now that you will want to see the front fence put up. We must raise more money for that in order to do this. Let us raise it at once and get it up this fall if possible.

If everyone who has relatives buried in that cemetery would give their share we could have plenty to put up the front fence. It is desired to put up a much better fence in front than we put on the three sides. The writer has paid out

\$50 70 for the fence that has already been put up. There is only about \$8 left to start on the front fence. How much are you in on

your part in this front fence? All doing our part quickly and cheerfully will soon raise the needed amount. The more money we raise the better fence we can put up in front. It will take at least

\$100 to put up the cheapest kind of an iron fence in front and we ought to have at least \$200 to put up the fence we want.
